

MANAGEMENT INFORMATION SYSTEMS

Strategy and Action

SECOND EDITION

McGRAW-HILL INTERNATIONAL EDITIONS
Management Information Systems Series

Charles Parker ■ Thomas Case

BRIEF CONTENTS

PART ONE

Introduction 1

CHAPTER 1

Introduction to Management
Information Systems 3

PART TWO

People, Organizations,
Systems, and Management 37

CHAPTER 2

People and Organizations 39

CHAPTER 3

Systems and Models 81

CHAPTER 4

Management and
Decision Making 117

PART THREE

Information Technology
Concepts 161

CHAPTER 5

Hardware Fundamentals 163

CHAPTER 6

Software Fundamentals 225

CHAPTER 7

Database Management 277

CHAPTER 8

Telecommunications 335

PART FOUR

MIS in Practice 385

CHAPTER 9

Transaction Processing and
Management Reporting Systems 387

CHAPTER 10

Decision Support Systems 431

CHAPTER 11

Knowledge-Based Systems 477

CHAPTER 12

Office Information Systems 511

CHAPTER 13

MIS in the Functional
Areas of Business 549

PART FIVE

Building Management
Information Systems 595

CHAPTER 14

Requirements Analysis 597

CHAPTER 15

System Design 647

CHAPTER 16

System Acquisition, Implementation,
and Maintenance 689

CHAPTER 17

End-User Computing
and Development 729

PART SIX

MIS Management 755

CHAPTER 18

Information Resource
Management 757

CHAPTER 19

Selected Issues in MIS
Management 805

DETAILED CONTENTS

PART ONE

Introduction 1

Chapter 1

Introduction to Management Information Systems 3

INTRODUCTION TO MANAGEMENT INFORMATION SYSTEMS 6

The Emergence of Management Information Systems 6 ■ What is a Management Information System? 9 ■ MIS Subsystems 10

INFORMATION RESOURCE MANAGEMENT: AN INTRODUCTION 12

Data Versus Information 12 ■ What is Information Resource Management? 13 ■ Goals of Information Systems 14 ■ Operational Efficiency 14 ■ Functional Effectiveness 15

Using Information Technology to Improve Customer Service 16

Quality Customer Service 16 ■ Product Creation and Enhancement 17
Altering the Basis of Competition 17 ■ Identifying and Exploiting Business Opportunities 18 ■ Client Lock-In/Competitor Lock-Out 18 ■ Leveraging Your Investment in Information Technology 19

INFORMATION TECHNOLOGY FUNDAMENTALS 20

Components of Computer-Based Information Systems 20 ■ Programmers, Users, and Systems Analysts 21 ■ Technical Operation of a CBIS 21
Organizing Data on Computer-Based Information Systems 23 ■ Batch Versus Real-Time Processing 24

LEARNING ABOUT MANAGEMENT INFORMATION SYSTEMS 24

Key Issues in Management Information Systems 24 ■ Challenges in the Study of MIS 26 ■ The Organization of This Text 28

CASE STUDY: USING INFORMATION TECHNOLOGY FOR COMPETITIVE ADVANTAGE 34

PART TWO

People, Organizations, Systems, and Management 37

Chapter 2

People and Organizations 39

PEOPLE 40

Physiological Factors 41 ■ Worker Skills and Abilities 42 ■ Psychological Factors 46 ■ Other Psychological Factors 53

ORGANIZATIONS 54

Organizational Characteristics 54 ■ Jobs in Organizations 62

THE MIS FUNCTION IN ORGANIZATIONS 64

MIS Personnel 66 ■ Computer Operations Personnel 66 ■ Systems Analysts 67 ■ Programmers 67 ■ Information Center Personnel 68
OA Personnel 68 ■ MIS Management 68 ■ Database Administrators 68
Telecommunications and Network Management 69

ORGANIZATIONAL BEHAVIOR 69

Corporate Culture 69 ■ Power 70 ■ Intergroup Conflict 72 ■ Intragroup Dynamics 73

IT Helps Wilderness Society Track Delicate Ecosystems 74

CASE STUDY: AUTO DEALERSHIP USES A VARIETY OF

INFORMATION SYSTEMS TO COMPETE 79

Chapter 3

Systems and Models 81

WHAT IS A SYSTEM? 82

Components of a System 82 ■ System Environment 83 ■ Open Versus Closed Systems 85

MODELING SYSTEMS 86

General Versus Specific Models 87 ■ Levels of Models 87 ■ Types of Models 88 ■ Who is Responsible for Developing Models 94

MODELS OF ORGANIZATIONAL SYSTEMS 94

A General Model of the Organization and Its External Environment 94
Strategic-Planning Models 97

The Automated Salesperson 103

Critical Success Factors 106 ■ Management Control 108

**CASE STUDY: GULFSTREAM AEROSPACE RESHUFFLES MIS TO SUPPORT
CORPORATE STRATEGY 115**

Chapter 4

Management and Decision Making 117

MANAGEMENT 118

Levels of Management 118 ■ A Contingency Approach to Management 121 ■ Managerial Roles 127 ■ Planning and Control 132
Managerial Styles 134

MANAGERIAL DECISION MAKING 137

Characteristics of Effective Information 137

The Practicality of Virtual Reality 138

Types of Decisions 142

THE DECISION-MAKING PROCESS 144

Intelligence 146 ■ Design 149 ■ Solution Evaluation and Choice 150

How Risk Affects Decision Making 151

EVALUATING DECISION MAKING 153

Effectiveness Versus Efficiency 153

CASE STUDY: USING CAD FOR COMPETITIVE ADVANTAGE 158

PART THREE

Information Technology Concepts 161

Chapter 5

Hardware Fundamentals 163

ORGANIZATIONAL COMPUTING: PERSPECTIVES 164

Large-System Computing 166 ■ Personal Computing 167 ■ Network Computing 168

INPUT TECHNOLOGIES 169

End-User Input Devices 169 ■ Pen-Based Technologies 170 ■ Imaging and Digitizing Devices 170 ■ Voice-Input Devices 171 ■ Special-Purpose Input Devices 171

PROCESSING TECHNOLOGIES 176

Central Processing Unit 176 ■ Primary Memory 177 ■ The Machine Cycle 179 ■ "Sizing" a CBIS 179 ■ Types of Computer Systems 183

Smart Cards: The World's New Way to Pay 187

Emerging Processing Technologies 191

SECONDARY STORAGE TECHNOLOGIES 194

Accessing Data 194 ■ Disk Access Speeds 195 ■ Disk Devices and Media 195 ■ Optical Disk Technologies 197 ■ Tape Devices and Media 200 ■ Storage Technologies for Larger Systems 201

New Substances, Smaller Circuits Mean More Speed and Power 205

OUTPUT TECHNOLOGY 206

Display Devices 206 ■ Printers 210 ■ Special-Purpose Output Devices 213

CASE STUDY: WILL THE BANKS MEET THE MIS CHALLENGE? 222

Chapter 6

Software Fundamentals 225

SYSTEMS SOFTWARE 228

The Operating System 228 ■ Components of the Operating System 229

Microcomputer Operating Systems 229 ■ Network Operating Systems 234

Operating Systems for Larger Systems 235

Hi, I'm Victor; I'm Here to Help You 237

Other Important Types of System Software 239

APPLICATION SOFTWARE 244

General-Purpose Microcomputer Application Software 246 ■ Special-Purpose Microcomputer Application Software 248

PROGRAMMING LANGUAGES 249

Evolution of Programming Languages 250

Are Personal Computers Keeping Workers from Being Productive? 253

Fourth-Generation Languages 255 ■ Software Engineering and CASE Tools 264 ■ Beyond the Fourth Generation 264

MANAGEMENT ISSUES 266

Application Backlogs 267 ■ Approaches for Reducing Application Backlogs 267 ■ Site Licensing and Copy Protection 269

CASE STUDY: ARE U.S. PROGRAMMERS A DYING BREED? 274

Chapter 7

Database Management 277

DATA MANAGEMENT 278

Major Issues in Data Management 280 ■ User Interfaces 282

FILE MANAGEMENT 284

Evolution and Limitations 285 ■ An Example of File Processing 286

File Management Software 289 ■ Internally Developed File Management Programs 289

DATA ACCESS AND ORGANIZATION METHODS 290

Access Methods 291 ■ Organization Methods 291

Beyond Post-It Notes: Stick on Memory Buttons 299

Secondary Keys 299 ■ Batch Processing File Structures 301
Interactive Processing File Structures 301

DATABASE MANAGEMENT 301

An Example of Database Processing 302 ■ The Database 302
Access Tools 303 ■ Advantages and Disadvantages of Database
Management 303 ■ Database Models 305

DATABASE MANAGEMENT FOR LARGE SYSTEMS 309

Database Administration 309 ■ Setting Up Relational Databases 311
Database Processing 312 ■ Structured Query Language (SQL) 312

A Database That Holds the Blueprint of Life 314

Concurrent Access 314 ■ Interfacing with Preexisting Applications 315
Database Security 315 ■ Data Dictionaries/Directories 317
Distributed Databases 318

DATABASE MANAGEMENT ON MICROCOMPUTERS 318

Processing Activities 320 ■ Multiuser Databases for Microcomputer
Networks 320

BEYOND TRADITIONAL DATABASE SYSTEMS 321

Object-Oriented Databases 321 ■ Multimedia Data Management 323
Image Processing and Document Management Systems 324

EXTERNAL DATABASES AND INFORMATION SERVICES 325

**CASE STUDY: IMAGE DATABASES: A BREWER TASTE-TESTS NEW
TECHNOLOGY 332**

Chapter 8

Telecommunications 335

TELECOMMUNICATION: STRATEGIC CONSIDERATIONS 336

An Applications Framework 339 ■ Strategic Alliances 341
EDI Examples 343

DISTRIBUTED PROCESSING SYSTEMS 343

Distributed Processing Examples 343 ■ Advantages of Distributed
Processing 344 ■ Areas of Managerial Concern 346

COMMUNICATIONS MEDIA 347

Media Speed and Capacity 348 ■ Types of Media 348 ■ Physical
Lines 348 ■ Media Signals 351

Networks Take to the Wild Blue Yonder 354

NETWORKING ALTERNATIVES 357

Network Topologies 358 ■ Switching Alternatives 360 ■ Wide Area
Networks 362

Wireless Nets Snare Both Big and Small Fish 364

Local Area Networks 369

MANAGEMENT ISSUES 375

TRENDS AND FUTURE DEVELOPMENTS 377
CASE STUDY: GLOBAL NETWORKING DURING THE 1990s 382

PART FOUR

Chapter 9

Transaction Processing and Management Reporting Systems 387

A MANAGEMENT INFORMATION SYSTEMS FRAMEWORK 389

Transaction Processing Systems **389** ■ Management Reporting Systems **390** ■ Decision Support Systems **391** ■ Knowledge-Based Systems **391** ■ Office Systems **391**

TRANSACTION PROCESSING 392

The Nature of Transaction Processing **393** ■ Transaction Processing Functions **393** ■ Role of Information Technology in Transaction Processing **394** ■ The Transaction Processing Cycle **396** ■ Transaction Processing Subsystems **403**

Connecticut Mutual Life Insurance Company Embraces Imaging 415

Transaction Processing in Practice **420**

MANAGEMENT REPORTING SYSTEMS 421

Evolution of the Management Reporting Systems **421** ■ Types of Reports **423** ■ Structuring Report Content **423**

Telecommuting Helps Hewlett-Packard Retain Valued Executives 424

Role of MRS Outputs in Management **425**

CASE STUDY: EDI: CHANGING THE WAY BUSINESSES DO BUSINESS 429

Chapter 10

Decision Support Systems 431

WHAT IS A DSS? 432

DSS Goals and Applications **433**

COMPONENTS OF A DSS 437

PUTTING A DSS TO WORK 440

Information Retrieval **440** ■ Data Reconfiguration **442** ■ Calculator Activities **444** ■ Analysis **444**

Nordstrom's (Almost) Paperless Office 448

DSS DEVELOPMENT 449

DSS Products **450** ■ DSS Development Tools **451** ■ User Interfaces **456**

DSS EXAMPLES 457

A Wall Street DSS **457** ■ A National Forest DSS **457** ■ A Contract Negotiation DSS **458** ■ An Oil Executive's DSS **458** ■ An Environmental DSS **458**

GROUP DECISION SUPPORT SYSTEMS 458

Components of a GDSS 459 ■ GDSS Configurations and Classifications 460

Dick Tracy Would Marvel at Personal Communicators of the 1990s 461

GDSS Goals 462

EXECUTIVE INFORMATION SYSTEMS (EIS) 463

Executives 463 ■ Executive Roles and Decision Making 464

The Executive Decision-Making Environment 466 ■ EIS Roles and Characteristics 468 ■ Commercially Available EIS Products 470

CASE STUDY: FIDELITY INVESTMENT'S EIS 475

Chapter 11

Knowledge-Based Systems 477

ARTIFICIAL INTELLIGENCE 478

Evolution of AI 478 ■ AI Applications 479

THE NEED FOR EXPERT SYSTEMS 484

COMPONENTS OF AN EXPERT SYSTEM 486

Knowledge Base 486 ■ Inference Engine 491 ■ Knowledge Acquisition Subsystem 491

Applying Expert Systems to Accounting 492

User Interface 492 ■ Explanation Facility 493

DEVELOPING EXPERT SYSTEMS 493

Production 496 ■ Inspection 497 ■ Assembly 497 ■ Field

Service 497 ■ Telephone Repair 497 ■ Auditing 497 ■ Tax

Accounting 497 ■ Financial Planning 498 ■ Investments 498

Personnel 498 ■ Marketing and Sales 498 ■ Credit Authorization 499

Human Services Agency 499 ■ Medical Prognosis 499

EXPERT SYSTEMS VERSUS CONVENTIONAL APPLICATIONS 499

USES AND LIMITATIONS OF EXPERT SYSTEMS 500

Son of Terminator: Neural Nets for Business 501

NEURAL NETWORKS 502

CASE STUDY: USING AN EXPERT SYSTEM AT AMERICAN EXPRESS 509

Chapter 12

Office Information Systems 511

OFFICES AND OFFICE SYSTEMS 512

The Nature of the Office 512 ■ The Evolution of Office Systems 514

TYPES OF OA SYSTEMS 515

Document Management Systems	515	■	Message-Handling Systems	525
What the Heck is Groupware?	527			
Teleconferencing Applications	530	■	Office Support Systems	534
IMPLEMENTING OFFICE SYSTEMS	537			
Examples of Office Systems Applications	537			
Using Information Technology to Tame the Health Care Cost Monster	538			
Challenges and Issues	539			
THE INTEGRATED OFFICE	540			
Integrated Office Packages	540			
CASE STUDY: GLOBAL POSITIONING SYSTEMS: SPAWNING NEW COMMERICAL APPLICATIONS	546			

Chapter 13

MIS in the Functional Areas of Business 549

THE FUNCTIONAL AREAS OF BUSINESS: AN OVERVIEW	550
FINANCIAL INFORMATION SYSTEMS	553
Types of Decisions	553
■ Sources of Financial Information	556
Accounting Information Systems	558
MARKETING MIS	560
Marketing Decisions	562
Using Bank Debit Cards in the Supermarket	566
Sources of Marketing Information	570
MANUFACTURING MIS	571
MANUFACTURING DECISIONS	571
Wait 'Til You Hear About the Book I Scrolled!	579
Emerging Application Areas	579
■ Sources of Manufacturing Information	583
MIS IN OTHER BUSINESS AREAS	584
Research and Development Information Systems	584
■ Human Resource Information Systems (HRIS)	586
CASE STUDY: NETWORK ALLOWS SMALL MANUFACTURERS TO GO BIG TIME	592

PART FIVE

Building Management Information Systems 595

Chapter 14

Requirements Analysis 597

THE NATURE OF SYSTEMS DEVELOPMENT	598
The Role of Managers and Users in Systems Development	599

The Systems Development Life Cycle (SDLC) 600 ■ Potential Problems with Existing Systems 601 ■ Successful Systems Development: Essential Elements 602

APPROACHES TO SYSTEMS DEVELOPMENT 602

The Traditional Approach 603 ■ Prototyping Approaches 606 ■ End-User Development 609 ■ Other Alternatives to the Traditional Approach 612

Fast Food Chains are Gobbling Up Personal Computers 614

Top-Down Versus Bottom-Up Approaches 617 ■ Does an Ideal Systems Development Methodology Exist? 618

THE SYSTEMS DEVELOPMENT TEAM 618

THE PRELIMINARY INVESTIGATION 620

Feasibility Assessment 622 ■ Strategic Factors 623 ■ Articulating Problems and Opportunities 623 ■ Determining the Scale of the Development Effort 625 ■ Identifying Viable Options 626 ■ Estimating Costs and Benefits 626 ■ Reporting Results to Management 627

The New Breed of Systems Analysis 627

REQUIREMENTS ANALYSIS 628

Assessing Needs 629 ■ Analysis 631 ■ Assessing Strategic Impact 636 ■ Reporting to Management 639

DOCUMENTATION 639

Project Documentation 640 ■ System Documentation 640 ■ Program Documentation 640

CASE STUDY: BIG PROJECTS BRING BIG HEADACHES FOR UNCLE SAM 645

Chapter 15

System Design 647

REVIEWING SYSTEM REQUIREMENTS 648

DEVELOPING A MODEL FOR A NEW SYSTEM 649

Logical and Physical Dimensions 649

DESIGNING SYSTEM OUTPUTS 651

Content 651 ■ Form 652 ■ Output Volume 653 ■ Timeliness 654
Media 654 ■ Format 654

DESIGNING SYSTEM INPUTS 655

Content 656 ■ Timeliness 656 ■ Media 658 ■ Format 658 ■ Input Volume 658

DETERMINING PROCESSING REQUIREMENTS 658

Applications Software: Make or Buy? 658 ■ In-House Applications Software Development 663

Business Computers on the Road: Notebook Computers for the 1990s 665

Other Processing Concerns 673

Multimedia: Behind the Scenes 674

DETERMINING STORAGE REQUIREMENTS 675

Access and Organization	675	■	Storage Volume	676	■	Media	676
DEVELOPING PROCEDURES FOR USING THE SYSTEM							
Work Procedures	676	■	Control Procedures	677			
DETERMINING PERSONNEL REQUIREMENTS							
Work Description	679	■	Qualifications	679	■	Training	680
REPORTING TO MANAGEMENT							
	680						
CASE STUDY: SOFTWARE LEASING BECOMES MORE POPULAR							
	686						

Chapter 16

System Acquisition, Implementation, and Maintenance 689

ACQUIRING SYSTEM COMPONENTS FROM VENDORS 690

The Vendor Marketplace	691	■	The Request for Proposal (RFP)	694
Evaluating Vendor Proposals	697	■	Contracting with Vendors	699

SYSTEM IMPLEMENTATION 700

Scheduling	700	■	Program Coding	703
------------	-----	---	----------------	-----

Foreign Competitors Turn Up the Heat on U.S. PC Makers 705

Program Debugging and Testing	708	■	User Training	710	■	Conversion Options	714
-------------------------------	-----	---	---------------	-----	---	--------------------	-----

Software Re-Engineering Products are Extending Old Program Lives 716

POSTIMPLEMENTATION REVIEW 716

Formal Impact Study	717	■	Regular Audit	718	■	Performance Monitors	718
---------------------	-----	---	---------------	-----	---	----------------------	-----

SYSTEM MAINTENANCE 719

Software Maintenance	720						
----------------------	-----	--	--	--	--	--	--

CASE STUDY: THE COMPETITIVE EDGE OF BUG-FREE COMPUTER CODE 726

Chapter 17

End-User Computing and Development 729

PERSPECTIVES ON END-USER COMPUTING 730

The End-User Environment	730	■	Evolution of End-User Computing	732
--------------------------	-----	---	---------------------------------	-----

END-USER APPLICATIONS 733

Application Areas	734						
-------------------	-----	--	--	--	--	--	--

BENEFITS AND CHALLENGES OF END-USER COMPUTING 736

Benefits	736	■	Challenges and Problems	738
----------	-----	---	-------------------------	-----

MANAGING END-USER COMPUTING 740

Monopolist Approach	740						
---------------------	-----	--	--	--	--	--	--

Is Your Keyboard a Health Hazard 742

Laissez-Faire Approach 742 ■ Information Center Approach 743

THE INFORMATION CENTER 743

Staffing 743 ■ IC Services 745 ■ Effective Information Center Management 747

The Boss's New Assistant Is Digital 748

Strategic IC Management 749

CASE STUDY: WHEN IT COMES TO DOWNSIZING, NCR SPEAKS FROM EXPERIENCE 753

PART SIX

MIS Management 755

Chapter 18

Information Resource Management 757

THE MIS ORGANIZATION 758

MIS MANAGEMENT 760

THE CHIEF INFORMATION OFFICER (CIO) 761

Responsibilities of the CIO 761 ■ The Role of the CIO 761

PLANNING AND MIS 762

STRATEGIC CHALLENGES AND MIS 763

Two Views of MIS 763

STRATEGIC PLANNING AND MIS 766

The Corporate Strategic Plan 766 ■ The MIS Strategic Plan 767

NREN: The Data Highway of the Future 776

PROJECT PORTFOLIO MANAGEMENT 777

Analysis of Benefits and Costs 777 ■ Cost-Justification Approaches 777 ■ Project Selection 782 ■ Responsibility for Project Portfolio Management 785

PRICING MIS PRODUCTS 786

Cost and Profit Approaches 786 ■ Valuation Methods 787 ■ Unit Pricing 788

BUDGETING FOR THE MIS FUNCTION 788

Top-Down Budgeting 788 ■ Bottom-Up Budgeting 789 ■ Zero-Based Budgeting 789

EVALUATING THE MIS FUNCTION 790

IBM Restructures to Become More Competitive for the 1990s 791

KEY IRM ISSUES FOR THE 1990s 791

Downsizing 792 ■ Outsourcing 793 ■ Why Do Organizations Outsource? 795
Global Outsourcing 797

CASE STUDY: USING CRITICAL SUCCESS FACTORS TO INTEGRATE MIS AND CORPORATE STRATEGIES AT BOEING 802

SECURITY 806

Computer Crime 808 ■ Disaster Recovery 818

ETHICAL CONSIDERATIONS 819

Information Technology and Biometrics Combine for New Levels of Security 825

General Guidelines for Resolving Ethical Dilemmas 825

MIS CAREERS 826

Career Options 828 ■ Additional Training 829

MULTINATIONAL ISSUES 833

Language 833 ■ Culture 833 ■ Political Climate 833 ■ Laws and Customs 834 ■ Standards 835

The Wheels of Justice are Eroding Software Copyright Protection 836

Nationalism 837 ■ Economic Differences 837 ■ Staffing 838

Workday Differences 838 ■ Barriers to the Development of Global Networks 838

THE FUTURE OF INFORMATION TECHNOLOGY 840

Needs 841 ■ Breakthroughs 843 ■ Products, People, and Management 845

CASE STUDY: THE NEW ROLE OF MIS EXECUTIVES 849
