<i>List of Figures</i>	xi
<i>List of Tables</i>	xiii
<i>List of Abbreviations</i>	xv
1. Value-Driven Service Innovation	1
1.1. The world has changed significantly; innovation models have not	1
1.2. Defining Value-Driven Service Innovation	3
1.3. Value-Driven Service Innovation in practice	4
1.4. Interpretations of the concept of value	9
1.5. The importance of digitization for Value-Driven Service Innovation	12
1.6. Antecedents to Value-Driven Service Innovation	14
1.7. Shortcomings in current models of innovation	21
1.8. How to use this book	22
1.8.1. Context and Framework (Chapters 1–2)	23
1.8.2. Innovation Capacity (Chapters 3–5)	24
1.8.3. Innovation Ability (Chapters 6–8)	25
1.8.4. New Perspectives (Chapter 9)	26
1.9. References	27
2. The Service Innovation Triangle	29
2.1. The building blocks of innovation	29
2.2. Core innovation themes	29
2.3. Entrepreneurial and innovative firms	31
2.4. Layers of innovation	31
2.5. Research methodology	32
2.6. The Service Innovation Triangle	36
2.7. Resources: innovation capacity	36
2.8. Management: innovation ability	38
2.9. Value: innovation outcomes	39
2.10. Examples in practice	39
2.10.1. Nokia and Apple	39
2.10.2. Tesco and Sainsbury's	41
2.10.3. Reflections	41
2.11. Conclusion: innovation can start anywhere	42
2.12. References	44
Appendix 1: questions for VDSI interviews	46
3. Core Assets that Support Innovation Potential	49
3.1. Core assets: definitions and observations	49
3.1.1. Financial Assets	50
3.1.2. Tangible Assets	50
3.1.3. Intangible Assets	50

3.1.4. Assets Comparison over Time	51
3.1.5. Why have Separate Sub-triangles for the Core Assets	52
3.2. How innovation in core assets influences value creation	52
3.2.1. Financial Assets	52
3.2.2. Tangible Assets	55
3.2.3. Intangible Assets	55
3.3. The role of core assets in developing innovation capacity	56
3.3.1. Financial Assets	56
3.3.2. Tangible Assets	56
3.3.3. Intangible Assets	57
3.3.4. Core Assets	57
3.3.5. Kodak: A Case Study in Core Asset Potential but not Ability for Innovation	58
3.4. How to manage core assets to maximize innovation capacity	59
3.4.1. The Practitioner View of How to Maximize Innovation Capacity	60
3.4.2. How to Overcome Barriers to Innovation in Core Assets	61
3.5. Developing a Value-Driven Service Innovation view of core assets	62
3.6. References	62
4. Building Technological Capacity for Innovation	64
4.1. Technology: definitions, classifications, and observations	64
4.1.1. Definitions	64
4.1.2. Main Classifications	66
4.1.3. Observations	66
4.2. How innovation in technology influences value creation	68
4.2.1. Technology as a Sub-triangle	68
4.2.2. Why and How Technology is Important to Innovation	72
4.3. The role of technology in developing innovation capacity	74
4.3.1. How Technology Relates to the Different Parts of the Service Innovation Triangle Framework	74
4.3.2. Examples of Old and New Innovations, Showing the Importance of the Service Components	75
4.3.3. Case about Creating Innovation Capacity: Apple v Nokia	76
4.4. Practical implications for managing technology	77
4.4.1. Quotes from Practitioner Interviews	78
4.4.2. How to Overcome Barriers to Technology Innovation	79
4.5. Developing a Value-Driven Service Innovation view of technology	79
4.6. References	79
5. Building Organizational Capacity for Innovation	81
5.1. Organizational culture: definitions, theories, and observations	82
5.1.1. Defining Culture	82
5.1.2. National Culture and Management	83
5.1.3. Culture and Innovation at the Firm Level	84
5.1.4. Observations	86
5.2. How an innovation culture influences value creation at the firm level	88
5.2.1. Why have People as a Sub-triangle in the SIT-model?	88
5.2.2. How a Culture Influences Innovation	90
5.2.3. Why Culture is Important to Innovation	93

5.3. The role of People in developing innovation capacity	94
5.3.1. Relationships between People, Technology, and the Other Basic Assets	94
5.3.2. Example of Innovation, Showing the Importance of the Service Component	95
5.3.3. Case—Facebook v Myspace	96
5.4. How to manage People to maximize innovation capacity	96
5.4.1. Quotes from Practitioner Interviews	97
5.4.2. Barriers to Innovation	99
5.5. Developing a Value-Driven Service Innovation view of organizational culture	100
5.6. References	100
6. Developing New Customer Experiences	102
6.1. Customer Experiences: definitions, theories, and observations	102
6.1.1. Definitions	103
6.1.2. Theories	104
6.1.3. Observations	106
6.2. How innovation around Customer Experiences creates value	107
6.2.1. Reasons to have Customer Experiences as a Separate Sub-triangle	107
6.2.2. Quote from Academic Interviews	108
6.3. Customer Experiences and innovation capacity	109
6.3.1. How Customer Experiences Build on Innovation Capacity	109
6.3.2. Facebook v Myspace	111
6.4. How to manage Customer Experiences to maximize value creation	112
6.4.1. Quotes from the Practitioner Interviews	113
6.4.2. Implementing Innovative Customer Experiences	115
6.5. A Value-Driven Service Innovation view of Customer Experiences	117
6.5.1. How SIT Compares with Other Leading Models of Customer Experiences	119
6.6. Our contribution	120
6.7. References	121
7. Developing a New Service System	124
7.1. Service System: definitions, theories, and observations	124
7.1.1. Definitions	124
7.1.2. Main Theories Relating to a Service System	125
7.1.3. Observations	128
7.2. Creating value through the Service System	129
7.2.1. Why have the Service System as a Separate Sub-triangle	130
7.2.2. Quotes from Interviews	130
7.3. The Service System, Customer Experiences, and innovation capacity	131
7.3.1. How the Service System Relates to Innovation Capacity	131
7.3.2. Examples of Innovation, Showing the Importance of the Service System: Apple v Nokia	132
7.4. How to manage the Service System to maximize value creation	135
7.4.1. How to Overcome Barriers to Service System Innovation	136

7.5. A Value-Driven Service Innovation view of the Service System	136
7.5.1. Comparing the SIT Service System with Other Leading Models	136
7.6. Our contribution	137
7.7. References	137
8. Business Model Innovation	140
8.1. Definitions and theories of a business model	140
8.1.1. Definitions of a Business Model	140
8.1.2. Why Business Model is a Separate Sub-triangle in our Model	142
8.1.3. Observations and Examples	144
8.2. The main theories of business model innovation relevant to a services focus	146
8.2.1. Organizational and Financial Architecture	146
8.2.2. Open Business Models	147
8.2.3. The Business Model Canvas	148
8.2.4. Business Model Innovation	150
8.3. Business models, innovation capability, and ability	151
8.3.1. How Business Model Theories Relate to Innovation Ability and Capacity	151
8.3.2. Comparison of Business Model Concepts to the Realization Triangle	154
8.4. How business model innovation may create and maximize value	156
8.4.1. Overcoming Barriers to Business Model Innovation	156
8.4.2. Interview Material on Why Business Models are Important to Innovation	158
8.4.3. Quotes from Interviews: Will a Business Model Beat a Better Idea or Technology?	161
8.5. Our contribution	162
8.6. References	164
9. Applying the Value-Driven Perspective to Service Innovation	165
9.1. Value-Driven Service Innovation	165
9.2. The Service Innovation Triangle	166
9.3. Leadership in the innovation process	168
9.3.1. Leadership and Service Value	168
9.3.2. Leadership and Brand Values	170
9.4. The process of innovation	171
9.4.1. Positioning the Firm: Value	172
9.4.2. Designing Futures: Customer Experiences-Service System-Business Model	174
9.4.3. Planning the Changes: People, Technology, Financial, Tangible and Intangible Assets	175
9.4.4. Making the Changes: Implementation	175
9.4.5. Summary: A Guided Approach to SIT	176
9.5. More Value-Driven Service Innovation	177
9.5.1. From Tangible to Intangible	177
9.5.2. From Service System to Customer Experiences	178
9.5.3. From Technology to People	178
9.6. The contribution of VDSI and SIT	178
9.7. References	180
Index	183
