## UNIT I AN OVERVIEW OF MATERNITY AND PEDIATRIC NURSING, 1

### 1 The Past, Present, and Future, 1

- The past, 2
  - Obstetrics, 2
  - Pediatrics, 2
  - Obstetric and pediatric care in the United States, 2
- The present, 6
  - Family-centered care, 6
  - Financial considerations, 6
  - Changing perceptions of childbearing, 6
  - Midwives, 6
  - Role of the consumer, 6
  - Cultural considerations, 6
  - Technology and specialty expertise, 8
  - Genomics, 8
  - Health care delivery systems, 8
  - Coordination of care, 9
  - Interprofessional nursing care, 10
  - Healthy people 2030, 16
- The future, 16
  - Health care reform, 16
  - Global health nursing, 18
  - Future roles for nurses, 18
  - Influence of prenatal care on the adult health of the newborn, 19

## Unit II MATERNAL-NEWBORN NURSING AND WOMEN'S HEALTH, 22

### 2 Human Reproductive Anatomy and Physiology, 22

- Puberty, 22
  - Male, 22
  - Female, 23
- Reproductive systems, 23
  - Male, 23
  - Female, 24
- The human sexual response, 29
  - Physiology of the male sex act, 30
  - Physiology of the female sex act, 31

### 3 Fetal Development, 33

- Cell division and gametogenesis, 33
- Fertilization, 35
  - Sex determination, 35
  - Inheritance, 36

- Tubal transport of the zygote, 37
- Implantation of the zygote, 37
- Development, 37
  - Cell differentiation, 37
  - Prenatal developmental milestones, 38
- Accessory structures of pregnancy, 39
  - Placenta, 39
  - Umbilical cord, 42
- Fetal circulation, 42
  - Circulation before birth, 42
  - Circulation after birth, 42
- Impaired prenatal development and subsequent illness, 42
- Multifetal pregnancy, 44

### 4 Prenatal Care and Adaptations to Pregnancy, 47

- Goals of prenatal care, 47
- Preconception care, 48
- Prenatal visits, 48
  - Virtual prenatal care, 51
- Definition of terms, 51
- Determining the estimated date of delivery, 52
- Diagnosis of pregnancy, 52
  - Presumptive signs of pregnancy, 52
  - Probable signs of pregnancy, 53
  - Positive signs of pregnancy, 54
- Physiological changes in pregnancy, 55
  - Role of microbiomes in pregnancy, 55
  - Endocrine system, 55
  - Reproductive system, 55
  - Respiratory system, 56
  - Cardiovascular system, 57
  - Gastrointestinal system, 58
  - Urinary system, 58
  - Integumentary and skeletal systems, 59
- Nutrition for pregnancy and lactation, 59
  - Recommended dietary allowances and recommended dietary intakes, 63
  - Weight gain, 63
  - Nutritional requirements during pregnancy, 64
  - Nutritional requirements during lactation, 67
- Exercise during pregnancy, 67
  - Elevated temperature, 67
  - Hypotension, 67
  - Cardiac output, 67
  - Hormones, 69
  - Other factors, 69
- Smoking during pregnancy, 69

- Travel during pregnancy, 69
- Common discomforts in pregnancy, 70
- Psychosocial adaptation to pregnancy, 72
  - Impact on the mother, 72
  - Impact on the father, 73
  - Impact on the pregnant adolescent, 74
  - Impact on the older couple, 74
  - Impact on the single mother, 75
  - Impact on the single father, 75
  - Impact on grandparents, 75
  - Impact on siblings, 75
- Prenatal education, 75
- Effect of pregnancy and lactation on medication metabolism, 76
- Immunizations during pregnancy, 76
- Nursing care during pregnancy, 78

## 5 Nursing Care of Women With Complications During Pregnancy, 84

- Assessment of fetal health, 84
- Pregnancy-related complications, 88
  - Hyperemesis gravidarum, 88
  - Bleeding disorders of early pregnancy, 88
  - Bleeding disorders of late pregnancy, 94
  - Hypertension during pregnancy, 97
  - Blood incompatibility between the pregnant woman and the fetus, 101
- Pregnancy complicated by medical conditions, 102
  - Diabetes mellitus, 102
  - Heart disease, 106
  - Anemia, 107
  - Infections, 108
- Environmental hazards during pregnancy, 113
  - Bioterrorism and the pregnant patient, 113
  - Substance abuse, 113
  - Trauma during pregnancy, 116
- Effects of a high-risk pregnancy on the family, 117
  - Disruption of usual roles, 117
  - Financial difficulties, 118
  - Delayed attachment to the infant, 118
  - Loss of expected birth experience, 118

## 6 Nursing Care of Mother and Infant During Labor and Birth, 121

- Cultural influence on birth practices, 122
- Settings for childbirth, 122
  - Hospitals, 122
  - Freestanding birth centers, 122
  - Home, 125
- Components of the birth process, 126
  - Powers, 126
  - Passage, 128
  - Passengers, 128
  - Psyche, 131
- Normal childbirth, 131
  - Signs of impending labor, 132
  - Mechanisms of labor, 132

- Admission to the hospital or birth center, 134
  - When to go to the hospital or birth center, 134
  - Water birth, 134
- Admission data collection, 134
- Admission procedures, 136
- Permission and consent forms, 136
- Laboratory tests, 136
- Intravenous infusion, 136
- Perineal preparation, 136
- Determining fetal position and presentation, 136
- Nursing care of the woman in false labor, 136
- Nursing care before birth, 137
  - Monitoring the fetus, 137
  - Monitoring the woman, 144
  - Helping the woman cope with labor, 148
- Stages and phases of labor, 150
- Vaginal birth after cesarean, 150
- Nursing care during birth, 150
  - Nursing responsibilities, 151
  - Immediate postpartum period: the third and fourth stages of labor, 151
- Nursing care immediately after birth, 152
  - Care of the mother, 152
  - Care of the newborn immediately after delivery, 157
- Cord blood banking, 160
- Microbiomes and nursing care during labor and delivery, 161

## 7 Nursing Management of Pain During Labor and Birth, 164

- Education for childbearing, 164
  - Types of classes available, 164
  - Variations of basic childbirth preparation classes, 165
  - Basic content of all childbirth preparation classes, 165
- Childbirth and pain, 166
  - How childbirth pain differs from other pain, 166
  - Factors that influence labor pain, 166
  - Nonpharmacological childbirth preparation and pain management, 168
  - Pharmacological pain management, 171

## 8 Nursing Care of Women With Complications During Labor and Birth, 182

- Obstetric procedures, 182
  - Induction or augmentation of labor, 182
  - Amniotomy, 184
  - Amnioinfusion, 186
  - Version, 186
  - Episiotomy and lacerations, 187
  - Forceps and vacuum extraction births, 188
  - Cesarean birth, 189
- Abnormal labor, 191
  - Problems with the powers of labor, 193
  - Problems with the fetus, 195
  - Problems with the pelvis and soft tissues, 198

- Problems with the psyche*, 199  
*Abnormal duration of labor*, 199
- Premature rupture of membranes, 200  
*Nursing care*, 200
- Preterm labor, 200  
*Signs of impending preterm labor*, 201  
*Standardized assessment of preterm labor*, 201  
*Tocolytic therapy*, 201
- Prolonged pregnancy, 202  
*Risks*, 202
- Emergencies during childbirth, 202  
*Prolapsd umbilical cord*, 202  
*Placenta accreta*, 203  
*Uterine rupture*, 203  
*Amniotic fluid embolism*, 205
- ## 9 The Family After Birth, 208
- Adapting nursing care for specific groups and cultures, 208
- Cultural influences on postpartum care, 209  
*Using translators*, 209  
*Dietary practices*, 209
- Postpartum changes in the mother, 209  
*Reproductive system*, 209  
*Cardiovascular system*, 215  
*Urinary system*, 216  
*Gastrointestinal system*, 217  
*Integumentary system*, 217  
*Musculoskeletal system*, 217  
*Immune system*, 218  
*Adaptation of nursing care following cesarean birth*, 218
- Emotional care, 220  
*Mothers*, 220
- Parenthood, 221  
*Fathers*, 222  
*Siblings*, 222  
*Grandparents*, 222  
*Grieving parents*, 222
- The family care plan, 223
- Phase 2: care of the newborn, 223  
*Admission to the postpartum or nursery unit*, 223
- Breastfeeding, 231  
*Advantages of breastfeeding*, 231  
*Physiology of lactation*, 232  
*Assisting the mother to breast-feed*, 233  
*Special breast-feeding situations*, 238  
*Storing and freezing breast milk*, 238  
*Maternal nutrition*, 239  
*Weaning*, 240
- Formula feeding, 240  
*Types of infant formulas*, 240  
*Preparation*, 240  
*Feeding the infant*, 241
- Discharge planning, 242  
*Postpartum self-care*, 242  
*Newborn discharge care*, 244
- ## 10 Nursing Care of Women with Complications After Birth, 247
- Shock, 247
- Hemorrhage, 247  
*Hypovolemic shock*, 247  
*Early (primary) postpartum hemorrhage*, 248  
*Late postpartum hemorrhage*, 252  
*Subinvolution of the uterus*, 252
- Thromboembolic disorders, 253
- Infections, 254  
*Puerperal sepsis*, 254  
*Mastitis and breastfeeding*, 255
- Mood disorders, 256  
*Postpartum depression*, 256  
*Postpartum psychosis*, 257
- The homeless mother and newborn, 257
- ## 11 The Nurse's Role in Women's Health Care, 259
- Goals of healthy people 2030, 259
- Preventive health care for women, 259  
*Breast care*, 260  
*Vulvar self-examination*, 261  
*Pelvic examination*, 261
- Menstrual disorders, 262  
*Amenorrhea*, 262  
*Abnormal uterine bleeding*, 262  
*Menstrual cycle pain*, 263  
*Endometriosis*, 263  
*Premenstrual disorders*, 263
- The normal vagina, 264
- Gynecological infections, 264  
*Toxic shock syndrome*, 264  
*Sexually transmitted infections*, 265  
*Pelvic inflammatory disease*, 269
- Family planning, 269  
*Contraception*, 269  
*Natural family planning – fertility awareness*, 269  
*Temporary contraception*, 270  
*Emergency contraception*, 276  
*Unreliable contraceptive methods*, 277  
*Permanent contraception*, 277
- Menopause, 278  
*Physical changes*, 278  
*Psychological and cultural variations*, 279  
*Treatment options*, 279  
*Nursing care of the menopausal woman*, 280
- ## 12 The Term Newborn, 284
- Adjustment to extrauterine life, 284
- Phase 3: care of the newborn, 285  
*Nervous system: reflexes*, 285  
*Respiratory system*, 291  
*Circulatory system*, 292  
*Musculoskeletal system*, 293  
*Genitourinary system*, 295  
*Integumentary system*, 296  
*Gastrointestinal system*, 302

- Preventing infection, 303
- Discharge planning and parent teaching, 304

### 13 Preterm and Postterm Newborns, 311

- The preterm newborn, 311
  - Causes of preterm birth, 312
  - Physical characteristics, 312
  - Related problems, 312
  - Special needs, 319
  - Use of complementary medicine in the NICU, 323
  - Prognosis, 324
  - Family reaction, 324
- The postterm newborn, 324
  - Physical characteristics, 325
- Transporting the high-risk newborn, 325
- Discharge of the high-risk (preterm birth) newborn, 325

### 14 The Newborn with a Perinatal Injury or Congenital Malformation, 328

- Malformations present at birth, 329
  - Nervous system, 329
  - Gastrointestinal system, 334
  - Musculoskeletal system, 336
- Metabolic defects, 339
  - Phenylketonuria, 341
  - Maple syrup urine disease, 341
  - Galactosemia, 342
- Chromosomal abnormalities, 342
  - Down syndrome, 342
- Perinatal injuries, 344
  - Hemolytic disease of the newborn: erythroblastosis fetalis, 344
  - Intracranial hemorrhage, 349
  - Transient tachypnea of the newborn, 350
  - Meconium aspiration syndrome, 350
  - Neonatal abstinence syndrome, 350
- Infant of a diabetic mother, 351

## Unit III THE GROWING CHILD AND FAMILY, 354

### 15 An Overview of Growth, Development, and Nutrition, 354

- Growth and development, 354
  - The impact of growth and development on nursing care, 355
  - Terminology, 356
  - Directional patterns, 357
  - Some developmental differences between children and adults, 357
  - Critical periods, 360
  - Integration of skills, 360
  - Growth standards, 360
  - Developmental screening, 360
  - Influencing factors, 360

- Personality development, 364
- The growth and development of a parent, 372
- Nutrition, 374
  - Nutritional heritage, 374
  - Family nutrition, 375
  - Gluten-free diet, 377
  - Nutritional care plan, 377
  - Nutrition and health, 377
  - Nutrition and health promotion, 378
  - Feeding the healthy child, 380
  - Feeding the ill child, 384
  - The teeth, 385
- Play, 388
- Traveling with children, 389
- Ongoing health supervision, 390

### 16 The Infant, 392

- General characteristics, 393
  - Oral stage, 393
  - Motor development, 393
  - Emotional development, 393
  - Need for constant care and guidance, 395
- Development and care, 395
- Community-based care: a multidisciplinary team, 400
  - Health promotion, 400
  - Infants with special needs, 402
- Illness prevention, 402
  - Immunizations, 403
  - Nutrition counseling, 403
- Infant safety, 409
  - Car safety, 409
  - Fall prevention, 409
  - Toy safety, 409
- Summary of major developmental changes in the first year, 410

### 17 The Toddler, 412

- General characteristics, 412
  - Physical development, 412
  - Sensorimotor and cognitive development, 414
  - Speech development, 414
- Guidance and discipline, 414
- Daily care, 416
- Toilet independence, 418
- Nutrition counseling, 419
  - The picky eater versus a feeding disorder, 419
- Day care, 420
- Injury prevention, 420
  - Consumer education, 423
- Toys and play, 424

### 18 The Preschool Child, 427

- General characteristics, 427
  - Physical development, 427
  - Cognitive development, 428
  - Effects of cultural practices, 428

Language development, 428

Development of play, 428

Spiritual development, 428

Sexual curiosity, 429

Bedtime habits, 431

Physical, mental, emotional, and social development, 431

The three-year-old, 431

The four-year-old, 432

The five-year-old, 433

Guidance, 433

Discipline and limit setting, 433

Jealousy, 434

Thumb sucking, 435

Enuresis, 435

Preschool, 436

Daily care, 436

Clothing, 436

Accident prevention, 437

Play during health and illness, 437

Value of play, 437

The nurse's role, 437

Types of play, 438

Nursing implications of preschool growth and development, 439

## 19 The School-Age Child, 442

General characteristics, 442

Physical growth, 443

Sexual development, 443

Gender identity, 443

Sex education, 444

Influences from the wider world, 445

School-related tasks, 445

Play, 446

Observing play, 447

Latchkey children, 447

Physical, mental, emotional, and social development, 448

The six-year-old, 448

The seven-year-old, 448

The eight-year-old, 449

The nine-year-old, 449

Preadolescence, 450

Chores as teaching tools, 451

Guidance and health supervision, 451

Health examinations, 451

## 20 The Adolescent, 459

General characteristics, 459

Growth and development, 460

Physical development, 460

Psychosocial development, 465

Cognitive development, 468

Sexual development, 469

Parenting the adolescent, 470

Health promotion and guidance, 472

Nutrition, 472

Personal care, 473

Common problems of adolescence, 474

Smoking and vaping, 475

Drug use, 475

Depression, 475

Adolescent pregnancy, 475

The nursing approach to adolescents, 476

## UNIT IV ADAPTING CARE TO THE PEDIATRIC PATIENT, 479

### 21 The Child's Experience of Hospitalization, 479

Health care delivery settings, 479

Outpatient clinic, 479

Home, 480

Children's hospital unit, 480

The child's reaction to hospitalization, 481

Separation anxiety, 481

Pain, 482

Response to drugs, 482

Fear, 485

Regression, 485

Cultural responses and the use of language interpreters, 486

Intercultural communication: responses to hospitalization, 486

The parents' reactions to the child's hospitalization, 487

The nurse's role in the child's hospitalization, 488

Admission, 488

Developing a pediatric nursing care plan, 488

Clinical pathways, 489

Meeting the needs of the hospitalized child, 489

Confidentiality and legality, 494

Discharge planning, 494

Home care, 494

### 22 Health Care Adaptations for the Child and Family, 497

Admission to the pediatric unit, 497

Informed consent, 497

Identification, 497

Essential safety measures in the hospital setting, 498

Preparation steps for performing procedures, 499

Transporting, positioning, and restraining, 499

Data collection, observation, and recording, 499

Organizing the infant data collection, 501

Basic data collection, 501

The history survey, 501

The physical survey, 501

Specimen collection, 508

Physiological responses to medications in infants and children, 511

Absorption of medications in infants and children, 511

*Metabolism of medications in infants and children, 511*

*Excretion of medications in infants and children, 512*

**Nursing responsibilities in administering medications to infants and children, 512**  
*Parent teaching, 512*

*Administering oral medications, 512*

*Administering parenteral medications, 513*

*Preventing medication errors, 518*

**Selected procedures and their adaptation to children, 525**

*Nutrition, digestion, and elimination, 525*

*Respiration, 526*

*Preoperative and postoperative care, 532*

## **Unit V THE CHILD NEEDING NURSING CARE, 537**

### **23 The Child With a Sensory or Neurological Condition, 537**

**The ears, 537**

*Disorders and dysfunction of the ear, 538*

**The eyes, 542**

*Visual acuity tests, 543*

*Disorders and dysfunction of the eye, 543*

**The nervous system, 546**

*Disorders and dysfunction of the nervous system, 546*

### **24 The Child with a Musculoskeletal Condition, 570**

**Musculoskeletal system, 570**

**Musculoskeletal system: differences between the child and the adult, 571**

**Observation and assessment of the musculoskeletal system in the growing child, 571**

*Observation of gait, 571*

*Observation of muscle tone, 572*

*Neurological examination, 572*

*Diagnostic tests and treatments, 572*

*Laboratory tests and treatments, 572*

**Pediatric trauma, 572**

*Soft tissue injuries, 572*

*Prevention of pediatric trauma, 573*

*Traumatic fractures, 573*

**Disorders and dysfunction of the musculoskeletal system, 581**

*Osteomyelitis, 581*

*Duchenne's muscular dystrophy, 581*

*Slipped femoral capital epiphysis, 582*

*Legg-Calvé-Perthes disease (coxa plana), 582*

*Osteosarcoma, 583*

*Ewing's sarcoma, 583*

*Juvenile idiopathic arthritis (juvenile rheumatoid arthritis), 583*

*Torticollis (wry neck), 584*

*Scoliosis, 584*

*Sports injuries, 586*

**Family violence, 587**

**Child abuse, 587**

*Federal laws and agencies, 588*

*Nursing care and interventions, 588*

*Cultural and medical issues, 590*

### **25 The Child With a Respiratory Disorder, 593**

**The respiratory system, 593**

*Development of the respiratory tract, 593*

*Normal respiration, 594*

*Disorders and dysfunction of the respiratory system, 595*

### **26 The Child with a Cardiovascular Disorder, 623**

**The cardiovascular system, 623**

*Signs related to suspected cardiac pathology, 623*

*Congenital heart defects, 624*

*Acquired heart diseases, 629*

### **27 The Child With a Condition of the Blood, Blood-Forming Organs, or Lymphatic System, 638**

**Hematological system, 638**

**Anemias, 640**

*Iron-deficiency anemia, 640*

*Sickle cell disease, 641*

*Thalassemia, 644*

**Bleeding disorders, 645**

*Hemophilia, 645*

*Platelet disorders, 646*

*Henoch-schönlein purpura, 647*

**Disorders of white blood cells, 647**

*Leukemia, 647*

*Hodgkin's disease, 650*

**Nursing care of the chronically ill child, 651**

*Chronic illness, 651*

*Developmental disabilities, 652*

*Home care, 652*

**Nursing care of the dying child, 652**

*Facing death, 652*

*Self-exploration, 653*

*The child's reaction to death, 653*

*The child's awareness of his or her condition, 655*

*Physical changes of impending death, 655*

*Stages of dying, 655*

### **28 The Child With a Gastrointestinal Condition, 658**

**The gastrointestinal tract, 658**

**Disorders and dysfunction of the gastrointestinal tract, 659**

*Diagnostic and imaging tests of the gastrointestinal tract, 659*

*Congenital disorders, 660*

*Disorders of motility, 667*

*Fluid and electrolyte imbalance, 669*

Nutritional deficiencies, 676  
 Infections, 677  
 Poisoning, 679  
 Foreign body ingestion, 684

### 29 The Child With a Genitourinary Condition, 686

Development of the urinary tract, 686  
 Development of the reproductive systems, 688  
 Assessment of urinary function, 688  
*Anomalies of the urinary tract, 689*  
 Impact of urinary or genital surgery on growth and development, 697

### 30 The Child With a Skin Condition, 699

Skin development and functions, 699  
 Skin disorders and variations, 700  
*Congenital lesions, 701*  
*Skin manifestations of illness, 702*  
*Infections, 702*  
*Injuries, 710*  
 Nursing care of the burned child, 715  
*Emotional support, 715*  
 Sunburn, 716  
 Sunscreens, 716  
 Frostbite, 717

### 31 The Child With a Metabolic Condition, 719

Integration of the nervous and endocrine systems, 719  
 Disorders and dysfunction of the endocrine system, 720  
*Inborn errors of metabolism, 720*  
 Endocrine disorders, 721  
*Common metabolic dysfunctions, 721*

### 32 Childhood Communicable Diseases, Bioterrorism, Natural Disasters, and the Maternal-Child Patient, 737

Introduction, 737  
 Common childhood communicable diseases, 737  
 Review of terms, 742  
 Host resistance, 742  
*Types of immunity, 742*  
*Transmission of infection, 743*  
 Medical asepsis, standard precautions, and transmission-based precautions, 743  
*Protective environment isolation, 746*  
*Hand hygiene, 746*  
*Family education, 746*  
 Rashes, 746  
 Worldwide immunization programs, 747  
*Healthy people 2030, 747*  
*The nurse's role, 747*  
*Vaccines, 747*  
 The future of immunotherapy, 758

Bioterrorism and the maternal-child patient, 758  
*The nurse's role in the hospital setting, 758*  
 Sexually transmitted infections, 761  
 Overview, 761  
*Nursing care and responsibilities, 761*  
*HIV/AIDS in children, 762*

### 33 The Child With an Emotional or Behavioral Condition, 765

The nurse's role, 765  
 Types and settings of treatment, 766  
 Childhood Mental Disorders, 766  
 Organic Behavioral Disorders, 767  
*Neurodevelopmental dysfunctions, 767*  
*Autism spectrum disorders, 767*  
*Obsessive-compulsive disorders in children, 768*  
*Attention deficit/hyperactivity disorder (ADHD), 768*  
*Eating disorders, 769*  
*Bulimia, 770*
