I. INTRODUCTION TO TOTAL QUALITY MANAGEMENT 1

1. **Management Approaches to Improve Productivity and Quality 3**
 - Introduction 3
 - What Is Total Quality Management? 4
 - Other Definitions of Total Quality Management 5
 - One Executive's View of How to Achieve Success 6
 - Ten Years of the Toyota Production System in the United States 10
 - Managers as Sponsors, Facilitators, Leaders, and Coaches 11
 - Industrial Evolution at an Automotive Supplier 12
 - Conclusions 13
2. **Total Quality Management Defined in Terms of Reported Practice 15**
 - Introduction 15
 - Origins of the Total Quality Management Movement 16
 - Where Does Total Quality Management Fit In? 17
 - Primary Improvement Strategies Employed by Organizations 18
 - Secondary Improvement Strategies Employed by Organizations 20
 - Quantified Improvements Achieved 26
 - Conclusions 26
3. **Customer Focus and Customer Satisfaction 29**
 - Introduction 29
 - Customer Focus in Japan 31
 - Customer Focus in the Travel Services Industry 32
 - Customer Focus in Health Care 33
 - Customer Focus in the Package Delivery and Financial Services Industry 34
 - Customer Focus at the Leading Retailers 35
 - Customer Focus through Value Pricing 36
 - Conclusions 37

II. PRODUCTIVITY AND QUALITY IMPROVEMENT TEAMS THROUGH TEAMWORK AND TRAINING 39

4. **Human Resource Management and Employee Training 41**
 - Introduction 41
 - Requirements for a More Educated and Better Trained Workforce 42
 - The Training Experts: Selected Corporations 43
 - Motorola's Foundation Is Training 44
 - The German Model for Apprenticeship Training 45
 - Conclusions 46

5. **Human Resources Enhancement through Team Utilization 49**
 - Introduction 49
 - Japan's Participative Management Style 50
 - The European Nissan Plant 51
 - The Western View of Workers 52
 - Japanese and American Management Views 52
 - Effective Employee Development 53
 - The Japanese Management Style 54
 - Labor versus Capital 55
 - Conclusions 55

6. **Group Dynamics and Team Development 57**
 - Introduction 57
 - Historical Background of Group Dynamics 58
 - Span of Control of Small Work Groups 60
 - Size of Small Work Groups 61
 - Leadership Style of Small Work Groups 61
 - Group Structure 62
 - Pitfalls of Team Utilization 63
 - Three Types of Teams 64
 - Conclusions 64

7. **The Productivity and Quality Improvement Team 67**
 - Introduction 67
 - Objectives of Productivity Improvement Teams 68
 - Training of Team Members and Facilitators 68*
 - Establishment of Productivity Improvement Teams 69*
 - Implementation of Productivity Improvement Teams 69*
 - Success Factors 71
 - Cross-Functional Teams 72
 - Conclusions 72

8. **Team Process Leadership Roles and Functions 75**
 - Introduction 75
 - Leadership Roles 76
 - Stages of Team Development 77
 - The Polite Stage of Team Development 77*
 - The Why-Are-We-Here Stage of Team Development 77*

<i>The Struggle-for-Power Stage of Team Development</i>	77
<i>The Productive Stage of Team Development</i>	78
The Team Spirit	78
Conclusions	79

III. QUALITY AND PRODUCTIVITY IMPROVEMENT AND CONTROL TECHNIQUES 81

9. Brainstorming, Data Analysis, and Charting	83
Introduction	83
Brainstorming	84
Use of Affinity Charts as an Alternative to Brainstorming	85
Data Gathering, Tabulation, and Bar Diagrams	87
Histograms	87
Presentation Techniques	87
Flow-Process Charting	89
Recording Entries	91
Application of the Flow-Process Analysis Chart	92
A Proposed-Method Flow-Process Analysis Chart	92
Conclusions	95
10. Cause and Effect Diagrams and Pareto Analysis	97
Introduction	97
Examples of Cause and Effect Diagrams	97
Expanded Cause and Effect Diagram	98
Staged Cause and Effect Diagram	100
Pareto Analysis: A Problem Analysis Technique	100
Principles and Applications of Pareto Analysis	101
Conclusions	105
11. Statistical Control Charting	107
Introduction	107
Control Charting	108
Averages Control Chart	108
Other Types of Control Charts	111
Proportion Control Charts	112
Error Control Charts	114
What Is a Process Variation?	117
Decision Rules for Process Variation Control	118
Motorola's Six Sigma Challenge	123
Conclusions	125
12. Quality Function Deployment	127
Introduction	127
Description of Quality Function Deployment	128
Illustration of Quality Function Deployment	128
Application of Quality Function Deployment	133
The Taguchi Method and Quality Function Deployment	134
Conclusions	135

13. **Process Quality and ISO 9000 Standards** 137
 Introduction 137
 Components of the ISO 9000 Quality Systems Standards 138
 ISO 9000 and Global Sourcing 140
 ISO 9000—A New Approach to Productivity 141
 Conclusions 142

IV. IMPROVEMENT STRATEGIES 145

14. **Productivity and Its Measurement** 147
 Introduction 147
 What Is Productivity? 148
 The Productivity Level of the American Economy 149
 Productivity Improvement through Empowerment and Control 150
 Productivity Improvement through Engineering and Design Changes 151
 Productivity Improvement through Incremental Managerial Changes 152
 Conclusions 153
15. **Benchmarking** 155
 Introduction 155
 Achievements of Benchmarking 157
 Benchmarking the Product 157
 The Process of Benchmarking 158
 Benchmarking the Process 158
 Benchmarking in the Administrative Sector 159
 A Benchmarking Pitfall 159
 Benchmarking Networks 160
 Conclusions 160
16. **Cycle Time Reduction, Time-Based Competition,
 and Managerial Use of Time** 163
 Introduction 163
 Cycle-Time-Based Competition in Day-to-Day Operations 164
 Cycle-Time-Based Competition in New Product Designs 165
 Cycle-Time-Based Competition and the U.S. Armed Forces 166
 Managing Time for the Manager/Leader 167
 Conclusions 168
17. **Just-in-Time Operations** 171
 Introduction 171
 Just-in-Time Philosophy 171
 Just-in-Time Purchasing 173
 Just-in-Time at a Corning Plant 174
 Just-in-Time in the Retail Chain Store 175
 Conclusions 176
18. **Flexibility and Adaptability of the Firm** 179
 Introduction 179
 Operations Flexibility in Japan 180
 General Motors: Flexibility through Increased Plant Utilization 181
 Flexibility in Managing the Computer Hardware Industry 182

- Flexibility through Product Modularization 183
- Agile Manufacturing and Operations Systems 184
- Adaptability in Strategic Alliances 185
- The Adaptive and Flexible Corporation 186
- Conclusions 188
- 19. **Reengineering Systems 191**
 - Introduction 191
 - Pitfalls of Reengineering 192
 - Reengineering Management Information Systems 192
 - Reengineering in the Packaged Goods Transportation Industry 193
 - Reengineering at Ford Motor Company 194
 - Reengineering at IBM Credit Corporation 195
 - Reengineering at Boeing 196
 - Conclusions 198
- 20. **Concurrent Engineering and Integration of Functional Areas 201**
 - Introduction 201
 - Alternative Means of Achieving Integration 203
 - The Traditional versus the Integrated Approach 204
 - Proposed Product Development Routing Integrated Approach 206
 - Proposed Frameworks for Integrating Functional Areas 206
 - The Three-Managerial-Level Approach to Functional Area Integration* 208
 - Technical Aids—Flowchart and Cost Graph* 209
 - Comparison of Organizational Alternatives and Alternative Tools and Processes 212
 - Implementation 212
 - Conclusions 213
- 21. **Activity-Based Costing 217**
 - Introduction 217
 - Activity-Based Costing 218
 - Activity-Based Costing in Different Industries 221
 - Allocating Costs in Flexible Manufacturing Systems 223
 - Conclusions 223

V. NEW TRENDS AND DEVELOPMENTS IN TOTAL QUALITY MANAGEMENT 225

- 22. **Innovation in Product Design and Development 227**
 - Introduction 227
 - What Does Creativity Contribute to Innovation? 228
 - Innovation in Basic Products 229
 - Innovation—New Products 230
 - Innovation in Health Care Information Technology 230
 - Innovation in Biotechnology 231
 - Innovation in Digital Technology 232
 - Innovation in Computer Hardware and Software 233
 - Conclusions 234

23. **External Sourcing and Global Movements in Manufacturing** 237
 Introduction 237
 The Pros and Cons of Outsourcing 238
 Local Sourcing by Japanese Transplants in the United States 239
 Reducing the Number of Supplier Firms 239
 High Cost of German Production 240
 High Quality Level in Mexican Automobile Plants 241
 Conclusions 242
24. **Future of Total Quality Management** 245
 Introduction 245
 Quality as a Focus for Management Improvement 246
 Mentofactoring—Mento-Manufacturing—Mento-Operations 247
 How Did Wal-Mart Do It? 248
 Virtual Reality—What Is It? 250
 The Workplace in the Twenty-First Century 250
 Quality Experts, Consultants, and Associations 251
 Conclusions 253

VI. APPENDICES 255

- A. **Evaluation of Functioning Productivity Improvement Teams** 257
 Introduction 257
 Status of Implementation 258
 Level of Activity 259
 Effects of Staffing 260
 Operational Impact 262
 Changes in Employee Attitudes 263
 Conclusions 263
- B. **Using Activity-Based Costing to Achieve Manufacturing Excellence** 265
 Introduction 266
 Traditional Systems 266
 Activity-Based Costing 266
 What Is Manufacturing Excellence? 266
 Objectives of Continuous Improvement 267
 What Do Managers Need? 267
 Product Costs 267
 Conventional Product Costing Systems 268
 Overhead Activities Unrelated to Volume 268
 Overhead Rates Based on Direct Labor 268
 Activity-Based Costing Systems 269
 The Search for More Accurate Product Costs 269
 Eliminating Cross-Subsidies 271
 The Location and Consumption of Activities 271
 Using Activity-Based Costing to Focus Manufacturing Strategy 271
 The Impact of Sourcing Decisions 273
 Impact of New Process Technologies 273

Using Activity-Based Costing for Product Design 273
Using Activity-Based Costing for Continuous Improvement 274
Performance Measurement 274
Using Activity-Based Costing for Behavioral Change 274
Reducing Lead Times 276
Is Activity-Based Costing Consistent with Manufacturing Excellence? 276
Conclusions 277

Preface
