

Gerald V. Post | David L. Anderson

# Management Information Systems

2nd edition

*Solving Business Problems  
with Information Technology*

# Brief Contents

## CHAPTER 1

Introduction 2

*Appendix: Finding Information* 38

## PART 1 *Personal Productivity and Business Operations* 43

### CHAPTER 2

Personal Productivity 44

*Appendix: Displaying Data* 90

### CHAPTER 3

Solving Problems 94

*Appendix: Creating Web Pages* 126

### CHAPTER 4

Operations and Transactions 130

*Appendix: Accounting Review* 166

### CHAPTER 5

Database Management 170

*Appendix: Data Normalization* 216

## PART 2 *Business Integration* 225

### CHAPTER 6

Networks and Telecommunications 226

*Appendix: Technical Definitions* 276

### CHAPTER 7

Integration of Information 282

*Appendix: Interactive Online Meetings* 322

## PART 3 *Decisions and Models* 327

### CHAPTER 8

Models and Decision Support 328

*Appendix: Forecasting* 356

### CHAPTER 9

Decisions in Business Areas 368

*Appendix: Financial Definitions* 402

### CHAPTER 10

Complex Decisions and Artificial Intelligence 406

*Appendix: Optimization* 442

### CHAPTER 11

Strategic Analysis 448

*Appendix: Presentations* 489

## PART 4 *Designing and Managing Information Systems* 491

### CHAPTER 12

Systems Development 492

*Appendix: Visual Basic* 537

### CHAPTER 13

Organizing Information System Resources 542

*Appendix: Project Management* 583

### CHAPTER 14

Information Management and Society 592

*Appendix: Computer-Related Laws* 634

*Glossary* 639

*Organization Index* 656

*Subject Index* 658

# Contents

## CHAPTER 1

Introduction	2
Overview	4
The Expanding Role of Information Technology	4
What Is MIS?	6
Why Information Technology Is Important	7
<i>Collecting, Analyzing, and Sharing Data</i>	7
<i>Analyzing and Building Systems</i>	8
What Do Managers Do?	8
<i>Traditional Management and Observations</i>	8
<i>Making Decisions</i>	9
Business and Technology Trends	10
<i>Specialization</i>	10
<i>Management by Methodology and Franchises</i>	10
<i>Merger Mania</i>	14
<i>Decentralization and Small Business</i>	15
<i>Temporary Workers</i>	16
<i>Internationalization</i>	17
<i>Service-Oriented Business</i>	18
Re-engineering: Altering the Rules	19
Management and Decision Levels	20
<i>Operations</i>	21
<i>Tactics</i>	22
<i>Strategy</i>	22
An Introduction to Strategy	23
Management Information System Roles	26
Summary	27
Key Words	27
Web Site References	27
Review Questions	28
Exercises	28
Additional Reading	29
Cases: The Fast Food Industry	30
Discussion Issue: Why Don't Computers Understand English?	36
Appendix: Finding Information	38
<i>Web Search Engines</i>	38
<i>Boolean Searches</i>	38
<i>You Know What You Are Searching for</i>	39
<i>You Have a Vague Idea About What You Want</i>	40
<i>Internet Changes that Cause Complications</i>	41
<i>Exercises</i>	41

## PART 1 Personal Productivity and Business Operations 43

### CHAPTER 2

Personal Productivity	44
Overview	45
Introduction	46
Types of Data	46
<i>Object Orientation</i>	47
<i>Numbers and Text</i>	49
<i>Pictures</i>	50
<i>Sound</i>	52
<i>Video</i>	52
<i>Multimedia</i>	53
<i>Size Complications</i>	54
Hardware Components	55
<i>Processors</i>	56
<i>Input</i>	61
<i>Output</i>	64
<i>Secondary Storage</i>	66
<i>Operating Systems</i>	68
<i>Application Software</i>	69
<i>Research: Databases</i>	70
<i>Analysis: Calculations</i>	70
<i>Communication: Writing</i>	71
<i>Communication: Presentation and Graphics</i>	72
<i>Communication: Voice and Mail</i>	73
<i>Organizing Resources: Calendars and Schedules</i>	74
<i>The Paperless Office?</i>	74
Summary	75
Key Words	75
Web Site References	75
Review Questions	76
Exercises	76
Additional Reading	78
Cases: Entrepreneurial Businesses	79
Discussion Issue: Are Graphs Misleading?	88
Appendix: Displaying Data	90
<i>Column or Bar Chart</i>	90
<i>Pie Chart</i>	91
<i>Line Chart</i>	91
<i>Scatter Chart</i>	92
<i>Style and Ornamentation</i>	92
<i>Exercises</i>	92

**CHAPTER 3**

Solving Problems	94
Overview	95
Introduction	96
Object-Oriented Design	97
<i>Properties and Functions</i>	97
<i>Object Hierarchies</i>	98
<i>Events</i>	99
Analyzing Systems	99
<i>Divide and Conquer</i>	100
<i>Showing Object Interactions with Collaboration Diagrams</i>	101
Process Analysis	104
<i>Input, Process, Output</i>	104
<i>Divide and Conquer</i>	105
<i>Goals and Objectives</i>	106
<i>Diagramming Systems</i>	107
<i>Summary: How Do You Create a DFD?</i>	110
Asking Questions	111
Solving Business Problems and Cases	113
<i>Solve the Right Problem</i>	113
<i>Choose the Right Tools</i>	114
<i>Divide the System: One Step at a Time</i>	114
<i>Making a Decision</i>	114
<i>Consider the Consequences</i>	115
<i>Implementation</i>	115
<i>Hints for Solving Business Problems and Cases</i>	116
Summary	118
Key Words	118
Web Site References	118
Review Questions	119
Exercises	119
Additional Reading	119
Cases: Specialty Retail	120
Discussion Issue: Resistance to Change	125
Appendix: Creating Web Pages	126
<i>Styles</i>	126
<i>Creating Pages with HTML</i>	127
<i>Graphics</i>	127
<i>Links</i>	127
<i>Additional File Types</i>	128
<i>Publishing Documents to the web</i>	128
<i>Exercises</i>	129

**CHAPTER 4**

Operations and Transactions	130
Overview	131
Introduction	132
The Value and Cost of Information	134

Data Capture	135
<i>Point of Sale</i>	136
<i>Process Control</i>	138
<i>Electronic Data Interchange (EDI)</i>	139
Data Quality	144
<i>Data Integrity</i>	144
<i>Multitasking, Concurrency, and Integrity</i>	144
<i>Data Volume</i>	146
<i>Data Summaries</i>	146
<i>Time</i>	147
The Role of Accounting	147
<i>Input and Output: Financial Data and Reports</i>	147
<i>Purchases, Sales, Loans, and Investments</i>	149
<i>Inventory</i>	149
<i>The Accounting Cycle</i>	150
<i>Process: Controls, Checks and Balances</i>	150
Human Resources and Transaction Processing	151
<i>Input: Data Collection</i>	152
<i>Output: Reports</i>	153
<i>Process: Automation</i>	154
Summary	155
Key Words	155
Web Site References	155
Review Questions	156
Exercises	156
Additional Reading	157
Cases: Retail Sales	158
Discussion Issue: Are Standards Helpful?	163
Appendix: Accounting Review	166
<i>General Ledger</i>	166
<i>Balance Sheet</i>	166
<i>Earnings or Income Statement</i>	166
<i>Cash Flow</i>	167
<i>Equity Statement</i>	168
<i>Accrual versus Cash Accounting</i>	168
<i>Exercises</i>	169

**CHAPTER 5**

Database Management	170
Overview	171
Introduction	172
<i>Relational Databases</i>	173
<i>Tables, Rows, Columns, Data Types</i>	175
Advantages of the Database Approach	176
<i>Problems with a File Approach</i>	176
<i>The Database Management Approach</i>	177
Queries	179
<i>Single-Table Queries</i>	180
<i>Computations</i>	182
<i>Joining Multiple Tables</i>	185

<i>Examples</i>	186	<i>Sharing Hardware</i>	234
<i>Views</i>	188	<i>Sharing Software</i>	236
<b>Designing a Database</b>	188	<i>Voice and Video Communication</i>	236
<i>Data Definition</i>	189	<b>Components of a Network</b>	237
<i>Data Input Screens</i>	190	<i>Computers</i>	237
<i>Reports</i>	192	<i>Media</i>	239
<i>Putting It Together with Menus</i>	193	<i>Connection Devices</i>	246
<b>Database Administration</b>	195	<i>Software</i>	246
<i>Standards and Documentation</i>	195	<b>Enterprise Networks</b>	247
<i>Testing, Backup, and Recovery</i>	196	<b>Standards</b>	248
<i>Access Controls</i>	197	<i>The Need for Standards</i>	248
<b>Database and Spreadsheets</b>	197	<i>A Changing Environment</i>	249
<i>Data Storage versus Calculations</i>	197	<b>Object Orientation</b>	249
<i>Illustration</i>	197	<b>New Telecommunication Services</b>	250
<i>Security and Data Integrity</i>	199	<b>The Internet</b>	252
<b>Complex Data Types and Object-Oriented Databases</b>	199	<i>How the Internet Works</i>	253
<i>Text</i>	199	<i>Internet Features</i>	254
<i>Pictures and Graphs</i>	200	<i>Internet Mail</i>	255
<i>Objects</i>	200	<i>Access to Data on the Internet</i>	256
<b>Commercial Databases</b>	201	<i>Locating Data on the Internet</i>	257
<i>Advantages</i>	202	<i>Security Concerns on the Internet</i>	258
<i>External versus Internal Data</i>	202	<i>Browsers, Cookies, Certificates, ActiveX, and Java</i>	259
<b>Database Search Strategies</b>	203	<i>Internet 2</i>	260
<i>Summary</i>	204	<b>Electronic Commerce</b>	261
<i>Key Words</i>	204	<i>Prepurchase Information</i>	262
<i>Web Site References</i>	204	<i>Purchase Mechanisms</i>	262
<b>Review Questions</b>	205	<i>Postpurchase Support</i>	263
<b>Exercises</b>	205	<i>Digital Content</i>	264
<i>Additional Reading</i>	206	<b>Global Telecommunications</b>	264
<i>Cases: Airlines</i>	207	<i>Technical Problems</i>	265
<b>Discussion Issue: Who Should Control Corporate Data?</b>	214	<i>Legal and Political Complications</i>	265
<b>Appendix: Data Normalization</b>	216	<i>Cultural Issues</i>	266
<i>Introduction</i>	216	<i>Comment</i>	266
<i>Notation</i>	216	<b>Summary</b>	267
<i>First Normal Form</i>	218	<i>Key Words</i>	267
<i>Second Normal Form</i>	218	<i>Web Site References</i>	268
<i>Third Normal Form</i>	220	<b>Review Questions</b>	268
<i>Checking Your Work</i>	222	<b>Exercises</b>	268
<i>Exercises</i>	222	<i>Additional Reading</i>	269
<b>PART 2 Business Integration</b>	225	<i>Cases: Wholesale Trade</i>	270
<b>CHAPTER 6</b>		<b>Discussion Issue: International Data Flows</b>	274
<b>Networks and Telecommunications</b>	226	<b>Appendix: Technical Definitions</b>	276
<i>Overview</i>	227	<i>Introduction</i>	276
<i>Introduction</i>	228	<i>Direct Connections</i>	276
<i>Sharing Data</i>	230	<i>Switched Networks</i>	277
		<i>Shared-Media Networks</i>	277
		<i>Choosing Network Designs</i>	279
		<i>ISO Reference Model</i>	279
		<i>Exercises</i>	281

**CHAPTER 7**

Integration of Information	282
Overview	283
Introduction	284
Integration in Business	287
Enterprise Resource Planning	289
International Environment	290
Financial Accounting	290
Logistics	291
Human Resource Management	291
Integration	291
Workgroup Integration	292
Communication	293
Compound Documents	293
Databases	294
Applications	294
Workgroup Example	296
Problems with Sharing Documents	298
Integrating with Legacy Systems: A Data Warehouse	299
Building a Data Warehouse	300
Limitations of a Data Warehouse	301
Open Systems: Integration with Different Systems	301
Hardware	301
Software	302
Open Standards	302
Group Decisions	304
Features of a GDSS	304
Limitations of a GDSS	305
Software to Support Integration	306
Documents	307
Microsoft Pivot Tables	308
Protected Changes	308
Annotated Documents	309
Summary	310
Key Words	310
Web Site References	310
Review Questions	311
Exercises	311
Additional Reading	312
Cases: Automobile Industry	313
Discussion Issue: Telecommuting	320
Appendix: Interactive Online Meetings	322
Hardware Requirements	322
Software Requirements	322
Starting the Meeting	322
Communication Tools	322
Exercises	325

**PART 3 Decisions and Models** 327**CHAPTER 8**

Models and Decision Support	328
Overview	329
Introduction	330
Decisions	331
Biases in Decisions	332
Acquisition/Input	332
Processing	332
Output	333
Feedback	334
Models and Information Systems	334
Introduction to Models	334
Physical	334
Process	336
Business Modeling	336
Why Build Models?	337
Understanding the Process	338
Optimization	339
Prediction	340
Simulation or "What-If" Scenarios	341
Decision Support Systems: Database, Model, Output	342
Building Models	343
Assumptions	344
Identifying Input and Output Variables	344
Processes and Equations	345
Software	345
Limitations of Models	349
Model Complexity	349
Cost of Building Models	349
Problems with Modeling	350
A Business Model: Enterprise Information Systems	351
Description of an EIS	352
How Does an EIS Work?	352
Advantages of an EIS	353
Limitations of an EIS	353
Summary	354
Key Words	354
Web Site References	355
Review Questions	355
Exercises	355
Additional Reading	356
Cases: Computer Hardware Industry	357
Discussion Issue: Employee Privacy	360
Appendix: Forecasting	362
Structural Modeling	363

<i>Time Series Forecasts</i>	363	<i>Consistency</i>	413
<i>Exponential Smoothing</i>	364	<i>Training</i>	414
<i>Seasonal and Cyclical Components</i>	367	Decision Support Systems and Expert Systems	414
<i>Exercises</i>	367	Building Expert Systems	415
<b>CHAPTER 9</b>		<i>Knowledge Base</i>	416
Decisions in Business Areas	368	<i>Knowledge Engineers</i>	418
Overview	370	<i>Creating an ES</i>	419
Introduction	370	<i>Reasoning</i>	420
Accounting	371	<i>Limitations of Expert Systems</i>	421
<i>Transaction Processing and Tactical Management</i>	371	<i>Management Issues of Expert Systems</i>	422
<i>Control Systems</i>	372	Additional Specialized Problems	423
<i>Strategic Support</i>	373	<i>Pattern Recognition and Neural Networks</i>	423
<i>Example</i>	374	<i>Machine Vision</i>	425
Finance	375	<i>Voice and Speech Recognition</i>	426
<i>Investments</i>	375	<i>Language Comprehension</i>	426
<i>Corporate Finance</i>	377	<i>Robotics and Motion</i>	427
<i>Example</i>	378	<i>Statistics, Uncertainty, and Fuzzy Logic</i>	427
Marketing	380	DSS, ES, and AI	428
<i>Research and Forecasting</i>	380	Machine Intelligence	429
<i>Customer Service</i>	382	Object Orientation	430
<i>Example</i>	382	Summary	432
Human Resources Management	384	Key Words	432
<i>Employee Records</i>	384	Web Site References	432
<i>Performance Evaluations</i>	385	Review Questions	432
<i>Example</i>	385	Exercises	433
Geographic Information Systems	387	Additional Reading	434
<i>Maps and Location Data</i>	388	Cases: Franchises	435
<i>Example</i>	389	Discussion Issue: Who Owns Knowledge?	440
Summary	390	Appendix: Optimization	442
Key Words	391	<i>Sample Problem</i>	442
Web Site References	391	<i>Problem Definition</i>	443
Review Questions	391	<i>Spreadsheet Layout</i>	443
Exercises	391	<i>Excel Solver</i>	444
Additional Reading	394	<i>Solution</i>	444
Cases: Package Delivery	395	<i>Limitations</i>	444
Discussion Issue: Simulation	400	<i>Summary</i>	446
Appendix: Financial Definitions	402	<i>Exercises</i>	446
<i>Basic Accounting Reports</i>	402	<b>CHAPTER 11</b>	
<i>Interpretation</i>	402	Strategic Analysis	448
<i>Exercises</i>	405	Overview	450
<b>CHAPTER 10</b>		Introduction	450
Complex Decisions and Artificial Intelligence	406	The Competitive Environment	452
Overview	408	External Agents	453
Introduction	409	<i>Customers</i>	454
Specialized Problems: Complex, Repetitive Decisions	410	<i>Suppliers</i>	455
<i>Diagnostic Problems</i>	411	<i>Rivals, New Entrants, and Substitutes</i>	455
<i>Speedy Decisions</i>	412	<i>Government Regulations</i>	456
		IS Techniques to Gain Competitive Advantage	456

<i>Barriers to Entry</i>	456
<i>Distribution Channels</i>	458
<i>Switching Costs</i>	459
<i>Lower Production Costs</i>	460
<i>Product Differentiation and New Products</i>	461
<i>Quality Management</i>	462
<i>The Value Chain</i>	463
<i>The Search for Innovation</i>	464
<i>Research</i>	464
<i>Engineering and Design</i>	465
<i>Manufacturing</i>	466
<i>Logistics and Supply</i>	466
<i>Marketing</i>	466
<i>Sales and Order Management</i>	467
<i>Service</i>	467
<i>Management</i>	468
<i>Costs and Dangers of Strategies</i>	469
<i>High Capital Costs</i>	470
<i>When the Competition Follows</i>	470
<i>Changing Industry</i>	471
<i>Sharing Data</i>	472
<i>Government Intervention</i>	472
<i>Operations, Tactics, Strategy</i>	473
<i>Summary</i>	474
<i>Key Words</i>	475
<i>Web Site References</i>	475
<i>Review Questions</i>	475
<i>Exercises</i>	475
<i>Additional Reading</i>	476
<i>Cases: Travel Industry</i>	477
<i>Discussion Issue: Strategy or Power</i>	487
<i>Appendix: Presentations</i>	489
<i>Presentation Foundations</i>	489
<i>Building Individual Slides</i>	489
<i>Slideshow Animation</i>	489
<i>Slide Transitions</i>	490
<i>Audio Files</i>	490
<i>Exercises</i>	490
<b>PART 4</b> <i>Designing and Managing Information Systems</i>	491
<b>CHAPTER 12</b>	
<i>Systems Development</i>	492
<i>Overview</i>	494
<i>Introduction</i>	494
<i>Early Methods</i>	496
<i>Individual Programming</i>	496
<i>Top-Down and Bottom-Up Design</i>	497
<i>Systems Development Life Cycle</i>	499
<i>The Need for Control</i>	499
<i>Introduction to SDLC</i>	500
<i>Feasibility and Planning</i>	501
<i>Systems Analysis</i>	502
<i>Systems Design</i>	503
<i>Systems Implementation</i>	503
<i>Maintenance</i>	508
<i>Evaluation</i>	508
<i>Strengths and Weaknesses of SDLC</i>	510
<i>CASE Tools: Can Technology Help MIS?</i>	511
<i>Prototyping and Rapid Application Development (RAD)</i>	512
<i>Developing Systems Requires Teamwork</i>	514
<i>Object-Oriented and Event-Driven Development</i>	516
<i>End-User Development</i>	517
<i>When to Call for Help</i>	518
<i>Combining Methodologies</i>	519
<i>Purchasing Commercial Software</i>	520
<i>Summary</i>	521
<i>Key Words</i>	522
<i>Web Site References</i>	522
<i>Review Questions</i>	522
<i>Exercises</i>	522
<i>Additional Reading</i>	523
<i>Cases: Government Agencies</i>	524
<i>Discussion Issue: Users Versus Developers</i>	535
<i>Appendix: Visual Basic</i>	537
<i>Programming Logic</i>	537
<i>Visual Basic Example in Excel</i>	540
<i>Exercises</i>	541
<b>CHAPTER 13</b>	
<i>Organizing Information System Resources</i>	542
<i>Overview</i>	543
<i>Introduction</i>	544
<i>Managing the Information Systems Function</i>	545
<i>MIS Roles</i>	546
<i>Hardware Administration</i>	547
<i>Software Support</i>	548
<i>Access to Corporate Data</i>	549
<i>Software Development</i>	550
<i>Support for End-User Development</i>	550
<i>Corporate Computing Standards</i>	551
<i>Data and Database Administration</i>	552
<i>Advocacy Role</i>	553
<i>MIS Jobs</i>	553
<i>Centralization and Decentralization</i>	555
<i>Hardware</i>	555
<i>Software and Data</i>	557
<i>Personnel</i>	560

Client-Server Solutions	561	<i>E-mail Freedom</i>	606
Hardware	562	<i>Liability and Control of Data</i>	606
Software and Data	563	<i>Transactions and Money</i>	606
Personnel	565	Threats to Information	608
Peer-to-Peer Systems	565	Employees	609
Object Orientation	566	Consultants	610
Change and Outsourcing	567	Business Partnerships	610
Summary	570	Outsiders	610
Key Words	571	Personal Computers and Viruses	610
Web Site References	571	Computer Security	611
Review Questions	571	Manual and Electronic Information	612
Exercises	571	Backup Protection	612
Additional Reading	572	User Identification	614
Cases: Financial Services	573	Access Control	617
Discussion Issue: Outsourcing	581	Alternative Security Measures	617
Appendix: Project Management	583	Encryption	618
Project Management Steps	583	Encryption, Privacy, and Public Needs	620
Microsoft Project	584	Responsibility and Ethics	621
Sample Project	584	Users	621
Resource Usage	586	Programmers and Developers	622
Monitoring the Progress	586	Companies	623
Day of the Ride	587	Governments	623
Summary	588	Summary	624
Exercises	589	Key Words	625
<b>CHAPTER 14</b>		Web Site References	625
Information Management and Society	592	Review Questions	626
Overview	593	Exercises	626
Introduction	593	Additional Reading	627
Individuals	595	Cases: Health Care	628
Privacy	596	Discussion Issue: Security Limits?	632
Dehumanization	598	Appendix: Computer-Related Laws	634
Jobs	599	Property Rights	634
Loss of Jobs	599	Privacy	636
Physical Disabilities	600	Information Era Crimes	637
Telecommuting	600	Online Resources	638
Education and Training	603	Exercises	638
Government	603	<i>Glossary</i>	639
Social Interactions	604	<i>Organization Index</i>	656
Social Group Legitimacy	604	<i>Subject Index</i>	658
Access to Technology	605
