List of figures	xii
List of tables	xiii
Preface	xv
Introduction	1
What is this book about and who is it aimed at?	1
Where does the material come from?	3
Information literacy: explaining a theme	4
Overview	5
<i>Part 1: Setting the scene</i>	5
<i>Part 2: Possibilities and constraints</i>	6
<i>Part 3: Culture, power and information</i>	6
<i>Part 4: Conclusion</i>	6
Structure and distinctive features of the book	6
Use of the book for teaching	7
Part One The knowledge economy and managerial work	9
Chapter summary	10
1 Being information literate in the knowledge economy	11
Introduction	11
Thinking about the knowledge economy	12
Information literacy: origins and application	16
Information literacy and managerial work	19
Conclusion	22
Summary	23
Review questions	23
Discussion questions	23
Case exercise	24
Further reading	24
References	24

2 Managers and information	26
Introduction	26
The manager as decision maker	26
Managers in context: communication and negotiation	30
Managers and interpretation	34
Conclusion	37
Summary	38
Review questions	38
Discussion questions	39
Further reading	39
References	39
3 Data, information and knowledge	41
Introduction	41
Some knowledge trends	42
Data	44
<i>Data selection: the importance of the initial question</i>	44
<i>Data quality</i>	46
<i>Data ownership</i>	48
<i>Data summary</i>	48
Information	50
<i>Information as process</i>	50
<i>'Informate'</i>	52
<i>Information sharing: formal and informal information</i>	53
<i>Information summary</i>	54
Knowledge	55
<i>Knowledge in theory and practice</i>	55
<i>Tacit knowledge</i>	56
<i>Ways of knowing in organizations</i>	59
<i>Knowledge summary</i>	62
Conclusion	63
Summary	64
Review questions	64
Discussion questions	64
Further reading	65
References	65
Part Two Technology, structure and individuals	69
Chapter summary	70
4 Technology 1: Definitions and data	71
Introduction	71
Defining technology	72
<i>Technological determinism: over-stressing the case</i>	72

<i>Orlikowski and structuration theory: over-emphasizing agency?</i>	75
<i>Actor-network theory: privileging technology?</i>	77
Looking at technology from a morphogenetic perspective	78
Applications and data	80
<i>From data to database</i>	81
<i>Data warehousing</i>	81
<i>Executive Information Systems and Business Intelligence</i>	85
<i>Making data visible: varieties of enterprise data</i>	89
Handling data: conclusion	94
Summary	95
Review questions	96
Discussion questions	96
Further reading	96
References	96
5 Technology 2: ICT and communication	100
Introduction	100
Theories of communication	101
ICT for communication and sharing	104
<i>Document management systems</i>	104
<i>Groupware</i>	105
<i>Intranets</i>	109
<i>Email</i>	110
Knowledge management	112
Information and place	117
Conclusion	118
Summary	118
Review questions	119
Discussion questions	119
Case exercise	119
Further reading	119
References	120
6 Strategy, information and ICT	123
Introduction	123
Varieties of strategy	123
Supermarkets, information and strategy	125
<i>Supermarkets and data</i>	125
<i>Supermarkets and the Web</i>	127
Knowledge as resource	130
Strategy as process and practice	132
Bringing information in	133
<i>Information policies: the missing link?</i>	136
IS strategy: the myth of alignment?	140
Conclusion: military metaphor and strategy	145

Summary	146
Review questions	146
Discussion questions	146
Case exercise	147
Further reading	147
References	147
7 Structure and information	150
Introduction	150
The death of the middle manager?	151
Challenging functions: BPR	156
Projects, teams and information	159
Towards the network age?	162
Conclusion	165
Summary	166
Review questions	167
Discussion questions	167
Case exercise	167
Further reading	167
References	168
8 Roles, responsibilities and change	171
Introduction	171
Application specific training: the lessons from end-user computing	172
<i>Training for data analysis</i>	173
<i>Communicative competence</i>	175
<i>Information ethics</i>	177
<i>'Practical reasoning'</i>	178
Changing roles	179
<i>'Power users'</i>	179
The re-emergence of the librarian?	180
<i>Spanning boundaries: the hybrid manager?</i>	181
Recruitment, reward and careers	182
Information, resistance and change	184
Conclusion	189
Summary	191
Review questions	191
Discussion questions	191
Further reading	191
References	192
Part Three Power, culture and the institutional formation of information	195
Chapter summary	196
9 Power, culture and information	197
Introduction	197

Theories of power and information	198
Information and surveillance: call centres	202
Surveillance through the 'information grid'	204
Managers, agency and information	205
Culture and information	206
Organizational cultures of knowing	207
National cultures of information	208
Conclusion	210
Summary	211
Review questions	211
Discussion question	212
References	212
10 Institutions and information	214
Introduction	214
What is an institution?	215
Institutional systems and logics	216
New institutionalism	220
Information strategies in higher education: an institutionalist analysis of the UK experience	221
Limitations of an institutionalist approach	223
Critical realism, morphogenesis and information	225
Information and morphogenesis	227
Conclusion	230
Summary	231
Review questions	231
Discussion questions	232
Further reading	232
References	232
Part Four Conclusion	235
Chapter summary	236
11 The limits and potential of information literacy	237
Introduction	237
Information literacy at work: a balance sheet	238
Reflexivity and information	244
Structures and information	246
Conclusion	248
Summary	252
Further reading	252
References	252
Glossary	255
Index	261
