

2nd Edition

MICHAEL V. RUSSO

ENVIRONMENTAL MANAGEMENT

READINGS AND CASES

CONTENTS

Preface to Second Edition	xi
PART I THE BIG PICTURE	1
1. Beyond Greening: Strategies for a Sustainable World	3
<i>Stuart L. Hart, Cornell University</i>	
Thinking Globally and Inclusively About Sustainable Business Practices	
2. The Business Case for Climate Protection	15
<i>L. Hunter Lovins, Natural Capitalism, Inc.</i>	
Why Businesses Should Address the Climate Change Challenge	
3. Scorched Earth: Will Environmental Risks in China Overwhelm Its Opportunities?	40
<i>Elizabeth Economy, Council on Foreign Relations</i>	
<i>Kenneth Lieberthal, University of Michigan</i>	
The China Factor in the Environmental Equation	
4. The Triple Bottom Line: Sustainability's Accountants	49
<i>John Elkington, SustainAbility</i>	
The Imperative for Companies to Perform Well on Multiple Dimensions	
PART II INSTITUTIONAL AND INTERNATIONAL PERSPECTIVES	67
5. The Tragedy of the Commons	69
<i>Garrett Hardin (formerly of the University of California, Santa Barbara)</i>	
The Classic Discussion of Population and Common Resources	
6. EPA and the Evolution of Federal Regulation	79
<i>Paul R. Portney, University of Arizona</i>	
Regulation and Economic Models for Meeting Pollution Reduction Goals	

7. Discounting the Future: Economics and Ethics	93
<i>Timothy J. Brennan, Resources for the Future</i> A Critical Analysis of the Practice of Discounting in Economic Analysis	
8. Measuring Nations' Environmental Sustainability	99
<i>Marc A. Levy, Columbia University</i> Quantifying and Ranking National Environmental Performance	
9. Bridging the Trade-Environment Debate	116
<i>Daniel C. Esty, Yale University</i> Capturing the Benefits of Free Trade While Protecting the Environment	
10. Raising Global Standards: Hazardous Substances and E-Waste Management in the European Union	131
<i>Henrik Selin, Boston University</i> <i>Stacy D. VanDeveer, University of New Hampshire</i> A European Approach to Toxics Regulation	
PART III MANAGING TO BE ENVIRONMENTALLY RESPONSIVE	149
11. Strategy Originates Within the Organization	151
<i>Andrew W. Hoffman, University of Michigan</i> Behavioral and Cultural Dimensions in Environmental Strategy	
12. Objection-Handling Clinic on Inhibitors to the Next Wave	169
<i>Robert Willard, The Sustainability Advantage</i> A Script for Overcoming Organizational Nay-Sayers	
13. The Next Industrial Revolution	191
<i>Paul Hawken, Natural Capital Institute</i> <i>Amory Lovins, Rocky Mountain Institute</i> <i>L. Hunter Lovins, Natural Capitalism, Inc.</i> Capitalism that Recognizes and Appreciates Living Systems	
14. Environmental Product Differentiation: Implications for Corporate Strategy	205
<i>Forest Reinhardt, Harvard University</i> When Will a Green Product Strategy Pay Off?	
15. Transparency, Openness, and Accountability: A New Imperative	228
<i>David L. Rainey, Rensselaer Polytechnic Institute</i> Appreciating the Need for Broad Access to More Information	

16. A Primer on the Global Reporting Initiative	243
<i>Kellie Fox, University of Oregon</i>	
<i>Beth Littlehales, University of Oregon</i>	
<i>Ryan Keenan, University of Oregon</i>	
The Emerging Standard for Company Sustainability Reporting	
17. The Eco-Advantage	262
<i>Inc. Magazine</i>	
Entrepreneurship, Innovation, and Sustainability Opportunities	
18. Excerpts from the 2006 Understanding the LOHAS Market Report	289
<i>The Natural Marketing Institute</i>	
Appreciating the Characteristics of Green Consumers	
19. Avoiding Green Marketing Myopia: Ways to Improve Consumer Appeal for Environmentally Preferable Products	296
<i>Jacquelyn A. Ottman, J. Ottman Consulting, Inc.</i>	
<i>Edwin R. Stafford, Utah State University</i>	
<i>Cathy L. Hartman, Utah State University</i>	
How to Win in the Marketplace for Green Products	
20. How Corporations and Environmental Groups Collaborate	315
<i>Dennis A. Rondinelli (formerly of Duke University)</i>	
<i>Ted London, University of Michigan</i>	
How Stakeholder Collaborations Can Improve Environmental Outcomes	
21. The Fortune at the Bottom of the Pyramid	336
<i>C. K. Prahalad, University of Michigan</i>	
<i>Stuart L. Hart, Cornell University</i>	
The Vast Potential in Serving the World's Poor	
PART IV TECHNICAL PERSPECTIVES	351
22. A New Framework for Management	353
<i>Brian Nattrass, Innovation Strategies, Inc.</i>	
<i>Mary Altomare, Innovation Strategies, Inc.</i>	
Unifying Scientific Principles With Sustainability	
23. An Introduction to Environmental Accounting as a Business Management Tool	369
<i>United States Environmental Protection Agency</i>	
A Tool Kit for Incorporating the Environment into Accounting Practice	

24. Note on Life Cycle Analysis	385
<i>Susan Svoboda, Realia Group</i>	
A Methodology for Identifying All Costs Across the Life of Products	
25. The LCA Impact and Interpretation Stages	395
<i>Thomas E. Graedel, Yale University</i>	
<i>Braden R. Allenby, Arizona State University</i>	
Quantifying Life Cycle Impacts and Comparing Alternatives	
26. A World of Abundance	407
<i>William McDonough, McDonough Braungart Design Chemistry, LLC</i>	
<i>Michael Braungart, McDonough Braungart Design Chemistry, LLC</i>	
Viewing Environmental Stewardship as a Design Challenge	
27. Environmental Management Systems and Eco-Control	417
<i>Stefan Schaltegger, University of Lüneburg</i>	
<i>Roger Burritt, University of South Australia</i>	
<i>Holger Petersen, UmweltBankAG Nürnberg</i>	
Tools for Bringing Environmental Performance to Facility Operations	
PART V CASES	455
28. Pacific Lumber Company	457
<i>Michael V. Russo, University of Oregon</i>	
<i>Cindy Noblitt</i>	
29. Oil in the Ecuadorian Rainforest	472
<i>Christopher A. Cummings, University of Virginia</i>	
<i>Barbara L. Marcus, University of Virginia</i>	
<i>R. Edward Freeman, University of Virginia</i>	
<i>Jason Lunday, University of Virginia</i>	
30. Hindustan Lever (A): Leaping a Millennium	485
<i>Aileen Ionescu-Somers, International Institute for Management Development</i>	
<i>Wolfgang Amann, International Institute for Management Development</i>	
<i>Ulrich Steger, International Institute for Management Development</i>	
31. Cost Accounting and Hazardous Waste at Specialty Glass, Inc.	494
<i>Christopher H. Stinson, University of Virginia</i>	
32. Southern Company: Acid Rain	498
<i>Forest Reinhardt, Harvard University</i>	

33.	Seventh Generation: Balancing Customer Expectations With Supply Chain Realities	504
	<i>Daniel R. Goldstein, University of Oregon</i>	
	<i>Michael V. Russo, University of Oregon</i>	
34.	Environment Product Differentiation by the Hayward Lumber Company	521
	<i>Monifa Porter, Stanford University</i>	
	<i>Magali Delmas, University of California, Santa Barbara</i>	
	<i>Erica Plambeck, Stanford University</i>	
35.	Coastwide Laboratories: Clean and Green	537
	<i>Derek O. Reiber, University of Oregon</i>	
	<i>Michael V. Russo, University of Oregon</i>	
36.	Transforming the Global Fishing Industry: The Marine Stewardship Council at Full Sail?	557
	<i>Alexander Nick, International Institute for Management Development</i>	
	<i>Oliver Salzmann, International Institute for Management Development</i>	
	<i>Ulrich Steger, International Institute for Management Development</i>	
37.	Phoenix Organic: Valuing Sustainability while Desiring Growth	567
	<i>Eva Collins, University of Waikato</i>	
	<i>Steve Bowden, University of Waikato</i>	
	<i>Kate Kearins, Auckland University of Technology</i>	
38.	Deja Shoe (A)	580
	<i>Paul Hardy, University of Michigan</i>	
	<i>Stuart L. Hart, Cornell University</i>	
39.	Supply Chain Strategy and Sustainability: The Migros Palm Oil Case (A)	590
	<i>Jens Hamprecht, Swiss Federal Institute of Technology</i>	
40.	Benziger Family Winery: EMS Development and Implementation	598
	<i>Murray Silverman, San Francisco State University</i>	
	<i>Tom Lanphar, California Environmental Protection Agency</i>	
41.	The WEEE Challenge	616
	<i>Panfeng Chen, INSEAD</i>	
	<i>Priya Narayan, INSEAD</i>	
	<i>Luk N. Wassenhove, INSEAD</i>	
	<i>Hassan Ghaziri, American University in Beirut</i>	
42.	Cascades's Environmental Management Model in 2006: At the Crossroads	631
	<i>Pierre Battelier, HEC Montreal</i>	
	<i>Emmanuel Raufflet, HEC Montreal</i>	

43. Procter & Gamble Inc: Disposable and Reusable Diapers—A Life-Cycle Analysis	648
<i>Management Institute for Environment and Business</i>	
44. Alpha Motors, Ltd.: Integrating Life-Cycle Environmental Concerns into Product Design	652
<i>Sandra Rothenberg, Rochester Institute of Technology</i>	
<i>Michael Lenox, Duke University</i>	
<i>Benjamin Jordan, Massachusetts Institute of Technology</i>	
<i>Frank Field III, Massachusetts Institute of Technology</i>
